Humminbird® redesigned their Down Image transducer. To ensure that the correct Transducer Shield is selected, please study the picture to identify your transducer.

(1) **Original** transducer shown above **LEFT**. Note that the cable comes out on the **RIGHT** and the transducer is rounded at the back. The transducer is approximately 4-3/4" long x 1-1/2" wide. The Transducer Number labeled on the cable is **XNT 9 DI T** and will fit Transducer Shield # TM-DI

(2) **Redesigned** transducer shown above **RIGHT**. Note that the cable comes out on the **LEFT** and the transducer is flat at the back. The transducer is approximately 5" long x 1-3/4" wide. The Transducer Number labeled on the cable is **XNT 9 DI T (RD)** will fit Transducer Shield # TM-DI-2
